ANNUAL BRANCH MEETING 2024

Claudlands, Hamilton
Thursday 9 – Saturday 11 May 2024

REGISTRATION NOW OPEN

WELCOME

Dear Colleagues,

It is our pleasure to welcome you to Kirikiriroa for the 2024 HSANZ annual branch meeting.

We have a fantastic line up of leading international and local experts joining us in person and virtually for both the medical and nursing streams. This allows us to offer a diverse range of topics across both the malignant and non-malignant haematological spectrum as well as giving time to the important subjects of ensuring equity in healthcare and how we can better care for ourselves within the workplace.

Our guest speakers include (but are not limited to!):

- Dr Ted Warkentin – VITT like syndromes
- Dr Anastazia Keegan – Obstetric/Transfusion Haematology
- Professor Peter Borchmann – Hodgkin lymphoma
- Professor Attilio Orazi – Myeloproliferative neoplasms
- Ms Simone Sheridan – Supporting sexual change during treatment and illness
- Ms Tracy King – Myeloma

We also hope the trainees will continue to impress with their presentations for the David Heaton memorial prize and that centres will find the Edward Theakston memorial morphology session as educational and entertaining as ever! Dr Stephen Lade from Peter MacCallum Cancer Centre joins us for our morphology workshop on T/NK disorders, always a challenging topic.

Following the success of the Haemophilias Treaters' Group meeting in Palmerston North last year, this will also be going ahead on the Thursday along with the meeting of the LabHaem working group. This year, this will be incorporated into the Haematology Path Network meeting including our scientific colleagues.

The social program has us meeting for welcome drinks and a catch up with colleagues on Thursday at Alchemist Bar, and the conference dinner with dancing at Atrium on Friday evening which is always a highlight. Don't forget there is the opportunity to win the coveted 'happy hen' dancing award.

We hope to see you all here!

From the Te Manawa Taki organising committee

KEYNOTE SPEAKERS - NURSES

Tracy King PhD, MN, RN

Myeloma Clinical Nurse Consultant, Royal Prince Alfred Hospital, NSW Clinical Research Fellow; Clinical Lecturer; Cancer Nursing Research Unit, Faculty of Medicine and Health, Sydney University.

Simone Sheridan

Simone Sheridan (she/they) is a passionate nurse consultant, educator and social-justice advocate who thrives in roles where difficult conversations are required. Simone has a clinical background in intensive care (Peter MacCallum) and has completed postgraduate studies in critical care and clinical teaching. Over her diverse career she has been part of a family violence project team, designed LGBTIQ+ inclusive practice resources, and provided staff support during the pandemic. In her role as Sexual Health Nurse Consultant Simone regularly facilitates education for health professionals about the importance of sexual health and supports clients experiencing sexual changes as a result of illness or injury. For many years, Simone has spoken out about the issue of sexual harassment in healthcare. In 2019 she co-authored a piece called "Not our job; A nurse's story of sexual harassment by patients" which was published in an Australian anthology of #MeToo stories, as well as on the ABC – the national broadcaster of Australia. Simone and her work were also the subject of a 2021 book "The Care Factor" by author Ailsa Wild. Simone has recently commenced a new role at The Royal Melbourne Hospital as the first Sexual Safety Nurse Consultant.

Thursday 9 – Saturday 11 May 2024

MORPHOLOGY KEYNOTE

Stephen Lade

SL received his medical degree from the university of Melbourne, and completed pathology training in Melbourne at Queen Victoria, Peter MacCallum and Alfred Hospitals. He has worked as an anatomical pathologist in the department of pathology at Peter MacCallum Cancer Centre, Melbourne, since 2002. His primary clinical and research interest is in systemic and cutaneous lymphoma. He has published in excess of 50 articles, as well as book chapters, primarily in the area of lymphoid neoplasia, and serves as an ad hoc reviewer for several international journals.

HSANZ 2024 Bone Marrow Morphology Workshop and Edward Theakston Memorial Quiz

This year's theme for the morphology workshop is the challenging world of T and NK disorders. We all know as morphologists that these can be some of our trickiest cases and we are delighted that Dr Stephen Lade from Peter MacCallum Cancer Centre, Melbourne has agreed to be our expert.

The annual 'trick your colleagues' session or to give it its full title, the Edward Theakston Memorial session, is a highlight of the branch meeting for many and remember that there is the Icarus Award for the most outrageous or incorrect answer to be won, which will brighten up the duller of microscopy rooms.

Sometimes the simple things trip us up so we look forward to your cases. Let us continue to make morphology a HSANZ highlight!

Thank you for participating as the success of these sessions does depend on the enthusiasm of the contributors.

Looking forward to great interactive sessions.

Helen Moore
